Speaking of StarChild!

☆Hiragana & Numbers☆

It is a StarChild original program that focuses on listening, reading, and speaking Japanese. By learning proper Japanese, your child's communication skill will be improved and s/he will be able to have interests for Japanese culture. We recommend this program for children who go to local pre K school, and children who speak English at home. Communication skill will be improved by learning not only 50-hiragana alphabets but also vocabulary and the rule of numbers.

Music is FUN!

☆Eurhythmics☆

While listening music, Children react immediately so they are able to improve abilities of listening, rhythm, and concentration skills. Also, they need to think how they should move while listening sounds, so imagination, creativity and expression skill will be improved.

Cooperation skill will be improved too as Eurhythmics is a group activity and children look what other children do, and they change their moves.

To improve the abilities, children experiences using several instruments and listen different kinds of sounds. Children will be able to imagine the sounds by looking at instruments.

Let's be a Yogi !

☆Kid's YOGA☆

Your child is able to improve concentration skill by Yoga, as kids need to move and control breathing at the same time. At the same time, Your child learns the name of body parts in Japanese.

Also, yoga influences on not only for child's body and his/her brain, but also mental condition.

By having many kinds of poses, your child is able to understand and learn his/her body.

In addition, your child is able to exercise by doing many kinds of poses with his/her friends. Body flexibility and

StarChild has English Classes too!

☆ESL☆

Since your child is little, your child will be able to work on English diligently. Communication skill will be improved by talking o native English speakers, and your child will be comfortable speaking with adults in English. It is a group lesson so your child will enjoy speaking English with his/her friends.

This class is for children who might go to local pre-K school or children who needs extra English classes.
